Duct Seal AND Insulation ⁷	\$75	\$35	\$150	\$75	\$150	\$75	\$150	\$75	\$225	\$110
Window Replacement ⁸	\$250	\$125	\$500	\$250	\$500	\$250	\$500	\$250	\$750	\$375
Space Heating Boiler Pipe Wrap ⁹	-	-	\$100	\$50	\$100	\$50	\$100	\$50	\$100	\$50
House Total	\$500	\$250	\$1,500	\$750	\$1,500	\$750	\$1,500	\$750	\$1,500	\$750

1. Rebate: WITH approved Energy Survey/Audit = Customer spend X 50% up to Maximum
2. Rebate: WITHOUT approved Energy Survey/Audit = Customer spend X 25% up to Maximum
3. Must complete FIRST installation within 12 months of the Energy Survey/Audit
4. Air Sealing – requires pre-AND post-blower door test, OR, completion of substantial sealing as detailed by pre-blower door testing and specification of work required to reach a 10% reduction in external air infiltration.
5. Band Joist Insulation – to qualify for this rebate the band joint must be air sealed and insulated, such as with spray foam or cracks caulked and then insulation added.
6. Ceiling or Attic Insulation requires a start point of an effective R-24 or 8" of insulation or less. A minimum of R-19 or 6" of insulation must be added for rebate eligibility.
7. Duct Seal and Insulation in unconditioned spaces only are eligible for rebates.
8. Window Replacement – Max Rebate is \$25 per window replaced in homes heated primarily by MichCon gas or \$12.50 in homes centrally air conditioned primarily by Detroit Edison.
9. Pipe Wrap – only for natural gas space heating, water heating or steam boilers. Starting condition must be none or very poor insulation condition. Quantity must be at least 100 feet of pipe.
